Div. of Oil, Gas & Mining

RE: Expiration of ML 52443-MP & ML 52923-MP

Dear Permittee:

The above numbered Mineral materials Permit for building stone reached the end of its term on February 29, 2016 and is expired. The lands covered by the permit are described as follows, in Beaver County. So far as I am aware, none of the lands under this permit are disturbed by mining operations.

T30S, R7W, SLB&M
Section 16: NE4NE4

A second permit, ML 52923-MP, was issued to you covering the SE4NE4 of said Section 16, and building stone quarry (DOGM Permit #S/001/0080) was opened by you at this location a few years ago. Please beware that this permit, ML 52923-MP, is scheduled to expire on August 31, 2016. You should immediately start reclaiming this quarry such that the completion of reclamation work will coincide with the August 31, 2016 expiration date of the permit. Please immediately contact Peter Brinton, Division of Oil, Gas & Mining, (801) 538-5258 if you have any questions about the reclamation that is required. If any building stone is, or has been, removed from the quarry, then such production must be reported to my attention at the Trust Lands Administration, 675 E. 500 S., Suite 500, Salt Lake City, UT 84102.

Please contact me (801) 538-5152, if you have any questions in this matter.

Sincerely,

John T. Blake
Deputy Assistant Director/Minerals

CC: Peter Brinton
